NAME Keragloss

PRODUCT Professional curl-relaxing and anti-frizz treatment.

CAPACITY 120 ml 4.06 Fl. Oz 3 sachets x 15 ml 0.53 Fl. Oz.

HAIR TYPE All hair types.

DESCRIPTION Curl-relaxing hair treatment. Deeply nourishes and hydrates the hair. Removes frizz with a long-lasting effect for up to 12 weeks. Its formula combines hydrolyzed keratin, silk proteins and a low molecular weight amino acid complex, which enhances the penetration of the treatment into the hair fiber, leaving the hair soft, shiny and frizz-free from the first application.

ACTIVE INGREDIENT **Hydrolyzed Keratin** prevents split ends and breakage by deeply hydrating and softening the hair. **Soy proteins** protect and strengthen the hair, reducing the damage caused by chemical treatments.

DIRECTIONS FOR USE **1.** Wash the hair with Purifying Shampoo 1, rinse with plenty of water and remove excess water with a towel. **2.** Divide the hair into sections and using a brush, apply Keragloss Treatment 2 half a centimeter from the root down to the tips. **3.** Leave the product on for 20 minutes, and without washing, dry with a hairdryer and brush, smoothing the hair well. If the application process takes over 10 minutes, we recommend reducing the exposure time to 15 minutes. **4.** Straighten the hair, taking thin strands and using the straightening irons 5 to 12 times on each one, at a temperature of 150 to 220 degrees, depending on the sensitivity and resistance of the hair. **5.** Wait 15 minutes and wash the hair with Moisturizing Shampoo 3. Then remove excess moisture with a towel and apply Rich Mask 4. **6.** Leave the product on for 15 minutes and rinse with plenty of water. **7.** Dry the hair with a hairdryer and brush.
